

# PACIFIC CERAMICS SUBSTRATES

## THE SUBSTRATES OF CHOICE

**Pacific Ceramics** offers a complete line of low loss substrates for circuit miniaturization, with surface finishes at the highest quality, suitable for both thick film and thin film metallization.

We offer a large selection of Ferrites and Garnets with 4PiMs values ranging from 400 to 5000 gauss that can be used at UHF and microwave frequencies.

We also offer a complete line of low-loss dielectric ceramics, with dielectric constants ranging from 6 to 270.
